

Photo shows an RGB Ambrose design rendering and may show optional features which vary from the standard plan. Refer to the floor plan for standard plan features which you may customize to make your new RGB home everything you want it to be.

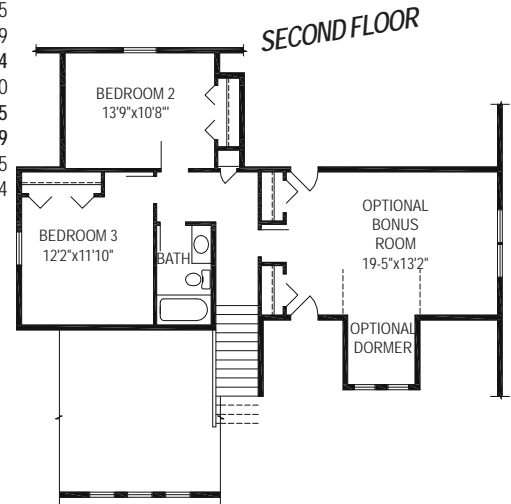

The Ambrose Design

With Bonus Room

SQUARE FOOTAGE SUMMARY*

1st floor	1,245
2nd floor	509
Finished Living space	1,754
Optional Bonus Room	310
Optional Dormer	45
Total Living Space	2,109
Optional Basement	1,245
Two-car Garage	484

This cottage style two-story home with its open floor plan gives this compact design the impression of a much larger & spacious home. The efficient kitchen with breakfast bar opens up the dining area for long family conversations. The living room with its cathedral ceiling welcomes visitors warmly entering off the front porch. The master bedroom is a private escape

with a master bath with bathtub and separate walk-in shower. Two more bedrooms grace the second level with a possible third room should you choose to include the bonus room; another full bathroom rounds off the second floor. A mud & laundry room with entrance from the 2 car garage is a very convenient feature. The Ambrose is all the home you'll ever need!
